## **DETAILED ACTION**

### ***Response to Amendment***

1. As a result of the amendment filed January 23, 2007, claims 48-61 remain pending.

### ***Response to Arguments***

2. Applicant's arguments, set forth in the request for reconsideration filed September 5, 2007, are persuasive. Per MPEP 804(I)(B)(1), the instant claims represent the "base" invention. As such, the provisional obviousness-type double patenting rejections of record are withdrawn. Upon issue of this application, the obviousness-type double patenting rejections of record in co-pending 10/440,022 will be made non-provisional.

### ***Allowable Subject Matter***

3. Claims 48-61 are allowed.
4. The following is an examiner's statement of reasons for allowance: While deposition of ink to form a pattern utilizing a scanning probe microscopy probe is known, the prior art neither teaches nor suggests the claimed process in which a pattern, previously deposited on a probe tip, is *transferred* from the tip to a substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
